Oaklands College

Oaklands College IT department is looking for a Junior IT Developer to join their friendly team.

Working on a part time basis at 25 hours per week, this role will support the IT team in the implementation and management of the software life cycle management process.

We are looking for an approachable, proactive and skilled individual with experience in web development and SQL database management.

Having a working background of working within IT development will be advantageous; however, we will be also be open to applications from recent graduates.

This role will assist with the day-to-day queries from teachers, students and other colleagues who use the in-house college information systems. Fully supporting the team with the maintenance and development of bespoke and third party college information systems will be a key part of the role.

In return, we offer flexible working, generous holiday allowance, automatic entry into the local government pension scheme, discounted gym and much more!

Safeguarding Statement:

Oaklands College is committed to safeguarding and promoting the welfare of children, young people and vulnerable adults and expects all staff and volunteers to share this commitment.
