Derby College

Welding at Derby College is going places! The engineering industry in Derby is both world renowned and nationally significant and we are now in an exciting position to recruit a Curriculum Support Assistant (CSA) in Welding to join our expanding, dedicated team. We have high ambitions for what we want to achieve for both local and national employers in the welding sector and, by delivering a range of industry co-designed welding qualifications and short courses from level 1 to level 4, we can ensure Derby maintains its rightful position as leading supplier to the welding industry.

Our welding courses range from full time students and apprentices to supporting current welding professionals to maintain and further develop their skills to reflect the ever increasing demand in industry standards. These include UCAS approved Welder Certification, CSCS Welder Cards and a variety of bespoke courses to meet individual business needs.

We are looking for industry professionals who have a genuine passion for fabrication & welding, are relentless in their pursuit of quality and want to help shape both the current and future workforce of Derby and beyond in the Welding sector.

Qualified to a minimum of L3 in a Welding/Fabrication & Welding specialism, the CSA role is vital to success of the department by offering direct support to workshop delivery and the preparation of materials and equipment for the lessons and is a great opportunity for those interested in developing a rewarding career in the education sector.

## Safeguarding Statement:

Derby College is committed to safeguarding and promoting the welfare of children, young people and vulnerable adults and expects all staff and volunteers to share this commitment. We particularly welcome applications from under represented groups including ethnicity, gender, transgender, age, disability, sexual orientation or religion.
